- Guided Wave Radar Transmitters
- Magnetic Level Gauge Switches
- Laser Level Transmitters
- Ultrasonic Level Transmitters and Switches
- Buoyancy Level Sensors and Switches

- Analyzers measuring H₂S, H₂O, CO₂, Wobbe Index, Heating Value (BTU) and CARI

- Wireless I/O
- Wireless Fieldbus Gateways
- Wireless Ethernet and Cellular
- Wireless Serial

- Surface Heating Solutions
- Freeze Protection
- Custom Heating Solutions
- Composite Curing
- Temperature Controllers

- Non-nuclear Density Meters for Slurry and Dry Bulk Applications

- Single Stage Regulators
- Dual Stage Regulators
- Back Pressure Regulators
- Differential Switchover
- Vaporizing Pressure Regulators

OUR BUSINESS PARTNERS

- Valves
- Actuators
- Automation Controls

- Thermocouples
- RTD's
- Thermowells and Protection Tubes
- Transmitters
- Indicators

- Melt Pressure Transducers
- Temperature Sensors
- Safety Systems

- Analyzer and measurement integration solutions and accessories
- Skid-mounted buildings, calibration gas blankets, heat trace tubing, regulators, and switchover manifolds
- Nitrogen actuation gas cabinets

- Submersible Level Transmitters
- Pressure Transmitters
- Autonomous Water Level Loggers
- Digital Pressure Gauges
- Pressure Calibrators
