

## MANUFACTURERS WE REPRESENT

- Natural gas orifice fittings, orifice flanges, and related products
- Liquid turbine meters & control valves

- Natural gas & liquid ultrasonic meters (formerly Daniel)

- Analyzers measuring H<sub>2</sub>S, H<sub>2</sub>O, CO<sub>2</sub>, Wobbe Index, Heating Value (BTU) and CARI

- Natural gas & process chromatographs

- Analyzer sample conditioning components
- Sample probes
- Moisture & corrosion control packets

- Heated sample conditioning systems
- Sample components
- Regulators

- Flow conditioning plates
- Flow nozzles
- Venturis
- Static Mixers

- Infrared radiant heaters - protects measurement and regulation equipment

- TRACErase- patented fugitive emissions eliminators

- High performance control valves and control instruments for natural gas regulation

- BiRotor Plus PD Meter
- Compact prover for proving flow meters
- Strainer & air eliminators

- Water-Cut Analyzers
- PPM Analyzers for hydrocarbon liquids
- CCM Multiphase Meters
- Fiscal Water Analyzer Systems

## OUR BUSINESS PARTNERS

- Analytical and measurement integrations
- Skid-mounted buildings, MPODs (Measurement Packages on Demand), SFEs (Small Footprint Enclosures), Clamshells, Double-Door Enclosures, Bus Stops, Nitrogen Systems, and customized solutions
- Accessories including calibration gas heater blankets, heat trace tubing, regulators, and switchover manifolds

- Startup and commissioning
- Maintenance contracts: monthly, quarterly, semi-annual, & annual
- Site consultation
- Training on-site or at Cherokee M&C Learning Center
- Validation services

Industrial and energy solutions that include:

- Level measurement
- Heating solutions
- Gas control/Regulation
- Gas detection systems
- Wireless communication

CHEROKEE MEASUREMENT & CONTROL
